

LWEC Geoengineering meeting

Friday 20 May 2011

10.30-15.30h

1 Victoria Street, London

<http://www.bis.gov.uk/contact/london-offices>

Objective

To consider the need for a future LWEC activity in geoengineering by discussing the existing and planned work in this area and the requirements of LWEC Partners.

Agenda

1.	10.30h	Welcome and introductions	David Warrilow (Chair)
2.	10.40	Overview of the Royal Society report, "Geoengineering the Climate"	Andy Parker
3.	10.50	Communication and public engagement: "Experiment Earth?" – a public dialogue exercise on geoengineering	Faith Culshaw
4.		Recent work assessing cost, risks and benefits:	
	11.00	Report on the IGBP work on ecosystem impacts and geoengineering	Peter Cox
	11.10	Overview of SPICE	Matt Watson
	11.20	Overview of IAGP	Piers Forster
	11.30	Met. Office Hadley Centre research	Olivier Boucher
	11.40	Identification of current research gaps	Nem Vaughan
	11.50	LUNCH	
5.		Governance and international regulation – Research implications	
	12.50	Report from the Royal Society meeting	Andy Parker
	13.00	Report from the DECC/Oxford meeting	Tim Kruger
	13.10	Handling within Government	David Warrilow
	13.20	Proposals under the Convention on Biodiversity	Andrew Stott
6.	13.30	Discussion session: Future plans and next steps – what work could be done under LWEC	Andrew Watkinson (Chair)
7.	14.40	Plenary session	Rapporteurs
8.	15.00	Next steps	David Warrilow
	15.20	CLOSE
